Leaving Quito, we pass the Middle of the World (Equator) monument and then descend a scenic mountain road with forested mountains almost all the way. Reaching the turn to Bellavista, you climb to the top of the mountain, again with fabulous views, where Bellavista lodge is perched. After breakfast, enjoy the flurry of hummingbirds and take a guided hike into the forest on our varied trails. A guided hike will acquaint you with the exuberant vegetation (orchids, bromeliads) of the cloud forest, its bird life, and the fascinating adaptations to life in this special environment. After a delicious lunch, and perhaps a siesta, you will leave for the trip to discover the strange Cock-of-the-Rock with its raucous antics! The evening is relaxed – during or shortly after dinner, the Olinguito and Kinkajoo often visit the feeders right near the dining-room! There are also an incredible variety of moths, many of which are unknown to science .. After a refreshing night's sleep, an early morning bird hike in the serene morning light is well worthwhile – the best time for birds. At 8 a.m., an ample breakfast is served. Afterwards, take another guided hike (or if you wish, explore safely on your own!) Options include a different area and type of forest to explore, or a waterfall (hikes according to guide suggestions, availability and your interests!) Every hike reveals

something new even for those of us who are fortunate enough to live in the forest every day!!

Lunch is served at one, and afterwards you choose your time of departure (14.30 – 15.00) Some people take a final hike in the forest, and some take a peaceful siesta, others observe the birds or admire the ever – changing patterns of mist, cloud and sunny mountain vistas.....

Finally, you leave, to be back in Quito at dusk.
